

Fact Sheet on the bundled update of all legal texts on www.ebay.de

In the following guidelines, we will explain how you can perform a bundled update of the legal texts of your offers as a commercial provider on eBay without having to place the offers again.

Note

The bundled update of all legal texts is only possible if they are saved in your eBay account.

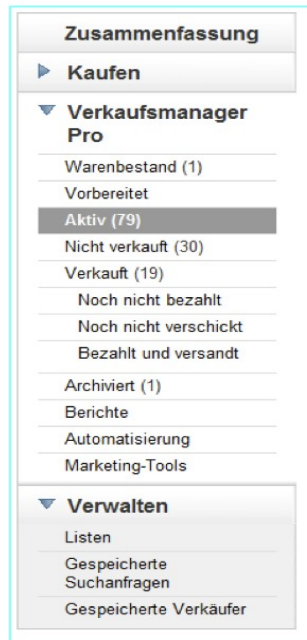

Short instruction:

Access your eBay account → “Einstellungen” (settings) → “Einstellungen für gewerbliche Verkäufer” (settings for professional sellers) → “Rechtliche Informationen des Verkäufers auf der Artikelseite” (provider’s legal information on the item page) → “Bearbeiten” (edit)

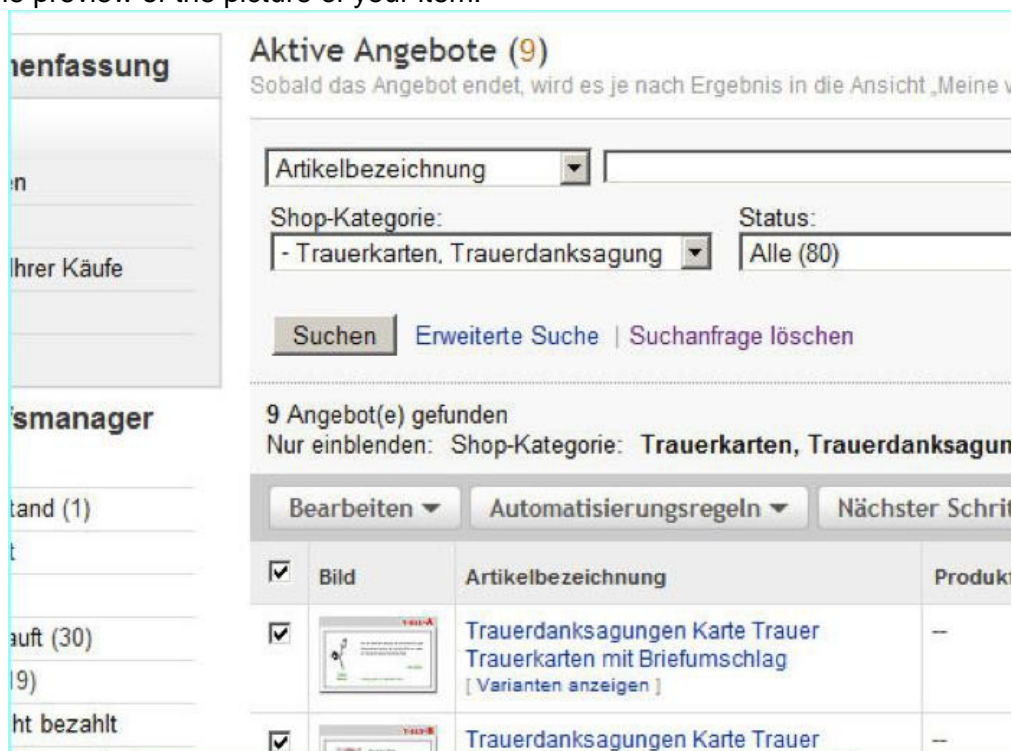

Detailed instructions on how to place legal texts on eBay can be found in the Fact Sheet [on implementing and updating legal texts on www.ebay.de](#) via the following link:
www.haendlerbund.de/hinweisblaetter/finish/1-hinweisblaetter/43-einstellen-der-rechtstexte-auf-der-internetplattform-ebay

Only then, the bundled update of the legal texts can be performed as described below.

1. In the section “**Mein eBay**” (My eBay), select the heading “**Zusammenfassung**” (summary). In the section “Zusammenfassung” in the “**VerkaufsmanagerPro**” (sales manager pro), click on the item “**Aktiv**” (active):

2. All your current and/or active offers are then displayed. In the window, which displays your active offers on eBay, choose the offers that you would like to edit by checking the box on the left of the preview of the picture of your item:

2

3. Then select the option “**Bearbeiten**” and then the option “**Alle Angebote bearbeiten**” (edit all offers). A new window will be opened in which your current offers can be edited. Finally, the changes made have to be **confirmed**.

For further questions on updating legal texts and/or in the event of need for technical assistance, **please contact the support from eBay** via the **contact form** under the following link
